EDUCATION

- **The BSc (Hons) Computer System Engineering (BSc. IT)**
  ISMT College (Sunderland University), Kathmandu | 2022-Present

- **High School (Grade 12)**
  Shikshadeep Boarding Sec. School, Biratnagar | 2019-2020

TECHNICAL SKILLS

- Web Development: JavaScript, React, HTML, CSS, TailwindCSS
- Design & Prototyping: Figma
- Networking: Basic understanding of network protocols and troubleshooting
- Productivity Tools: Microsoft Word, Microsoft Excel

PROJECTS

Personal Portfolio

- Designed and developed a fully responsive portfolio website using React and Tailwind CSS to showcase projects, skills, and contact information.
- Implemented smooth scroll navigation, dynamic project carousel, and interactive UI for an engaging user experience.
- Deployed the site using Netlify with SEO-friendly structure and optimized asset loading for fast performance.

RK Workshop | **Link**

- Built a static website for a local motor repair shop to showcase its services, location, and contact details using React, CSS, and Tailwind CSS.
- Focused on clean, mobile-responsive design to ensure accessibility and usability across devices.
- Hosted the project on Netlify, enabling easy access and a professional online presence for the client.

Random Blinking Grid | **Link**

- Created an interactive visual animation where grid cells blink randomly.
- Implemented logic for randomized timing and position-based effects to simulate a dynamic pattern.
- Focused on DOM manipulation, animation control, and efficient rendering for smooth visual output.

Soft Skills

- Good at finding solutions and solving problems
- Work well with team and communicate clearly
- Quick to learn new things and adjust to change
