ABOUT ME

Frontend Developer and UI/UX Designer with a Computer Science background, specializing in building responsive, high-performance web applications using React and Next.js while simultaneously crafting intuitive, user-centered interfaces in Figma. My dual expertise bridges the gap between design and development — I bring a developer's eye for feasibility to every design decision, and a designer's sense of clarity to every line of code. Currently seeking opportunities to grow in product design, frontend engineering, and end-to-end digital experiences.

SKILLS & TOOLS

Design	Figma Wireframing Prototyping User Research UI Design Design Systems
Frontend	React.js Next.js HTML5 / CSS3 JavaScript (ES6+) Tailwind CSS
Concepts	Responsive Design REST APIs Component Architecture Performance Optimization
Dev Tools	Git GitHub VS Code Figma

WORK EXPERIENCE

Frontend Developer — Internship → Full-Time — EasyPRwire

Sep 2025 – Mar 2026 (Internship: Sep–Nov 2025 | Full-Time: Dec 2025–Mar 2026)

- Developed responsive web applications using Next.js / React and modern CSS frameworks (Tailwind CSS).
- Integrated REST APIs and handled dynamic data rendering for production web applications.
- Improved page performance and loading speeds, contributing to measurable UX improvements.
- Collaborated cross-functionally with backend developers and designers to ship complete product features.
- Converted UI/UX designs into pixel-perfect, accessible interfaces — providing feasibility feedback directly in Figma.

PROJECTS

WebLoft Digital

- Built and maintained responsive, mobile-first frontend interfaces for multiple client websites.
- Applied UI/UX principles to ensure clean, consistent visual experiences across devices and browsers.
- Coordinated with clients to translate requirements into functional, polished web solutions.
- Tools: Figma, React, CSS3, GitHub.

Personal Portfolio

- Designed and developed a personal portfolio with a design-first workflow — UI laid out in Figma before coding.
- Built with React; implemented responsive layouts, smooth transitions, and accessible navigation.
- Created custom UI components to showcase both design and development work.

EDUCATION

B.Sc. Computer System Engineering (B.Sc. IT) — ISMT College, Kathmandu

2022 – 2025

- Relevant coursework: Web Technologies, Software Engineering.
- Actively applying frontend development skills alongside UI/UX design principles.

STRENGTHS

Attention to Detail • Dev-Informed Design Thinking • Problem Solving • Clean & Maintainable Code • Team Collaboration • Design-to-Code Workflow
